

Class Profile

- Analyses the context of individual classes.
- Highlights the prior attainment of the class and their targets.
- Can be used to show history of current/predicted grades.
- Allows user to create bespoke seating plans which automatically imports student context.
- KS3, KS4 and KS5 versions available.

Please find below a brief description of each page found within the Class Profile.

Class Profile – One page overview detailing the context of the class, prior attainment, targets and predictions. Very useful for class teachers.

Students – A page that will automatically filter to students in the selected class. Highlights key contextual data and shows prediction history if used.

Seating Plan – Allows class teachers to create seating plans. Students appear in a drop down and pulls through key information.
